THROWN FROM AUTOMOBILE

With His Brother, a Boston Real Estate Man, He Was Speeding Along
When the Machine Struck
Loaded Coal Team.

Newton, Mass., June 8.—The statement that Frank J. Quinn, a retired Rutland, Vt., real estate man, is still alive was made at the Newton hospital to-day, where he was taken last night with a fractured skull, having been the victim of an automobile accident in Chestnut Hill when the automobile collided with a coal wagon. Quinn was thrown into the roadway with great force.

His brother, John Quinn, manager of the hotel Essex, Boston, who owned the automobile, and whom he was visiting, was thrown with great force onto the hard macadam roadway, but escaped with only a severe shaking up and comparatively minor cuts and bruises.

Frank J. Quinn was visiting his brother for a few days and last evening they left Boston in John Quinn's automobile for a spin over the Commonwealth avenue boulevard. As the automobile was proceeding westerly in the direction of Newton Center, it overtook a loaded coal wagon owned by the Cousens Coal company and driven by Patrick McDonough of South Boston.

In attempting to pass the wagon, it is believed, the automobile was not turned out of its path a sufficient distance, and one of the wheels struck the rear end of the coal wagon.

Prompt aid was given Frank J. Quinn by Dr. Charles R. C. Borden, who happened to be only a short distance away. Dr. Borden accompanied the injured man to the hospital.

The police say they were informed by John Quinn that the injured man was named Francis Jones and that his home was in Keene, N. H., but that in looking over the wrecked machine they found a card in the tourist's car and established the identity of two of the occupants.

NO RECOMMENDATION
ON RECIPROCITYTo Be Made By Senate Finance Committee When It Presents Report
In Senate Next Tuesday.

Washington, D. C., June 8.—The Canadian reciprocity bill was acted upon to-day by the Senate finance committee and will be reported Tuesday without recommendation. The report amendment to the print paper and pulp provision was adopted by the committee by a vote of 8 to 6. The attempt to authorize an unfavorable report resulted in a tie vote and another tie marks the effort to report without recommendation before that result was accomplished.

The committee met in executive session to-day and promptly voted on the amendments. The first modification offered was by Senator Nelson of Minnesota, which would have reduced, instead of removing, the duties on live stock and farm products. This was defeated and the same fate was meted out to the House free list bill. An agent by Mr. Simmons, to include flour and meats in the free list, was also voted down.

San Diego, Calif., June 8.—A message received here to-day from a party of treasure seekers aboard the steamer Eureka say that their expedition to recover the cache of gold, hidden by the crew of a Chilean cruiser off the Honduras coast many years ago has been successful. The treasure is variously estimated at from \$1,000,000 to \$5,000,000. The steamer is now headed for this port. The Eureka is in command of Captain Burtiss and is chartered by a party of San Francisco people.

INTREPID AIR MEN.

Flew For Miles Above the Waters of
Massachusetts Bay.

Boston, June 8.—Far above the waters of Massachusetts bay late yesterday, two intrepid airmen flew for miles after mile as they hastened on their way from Squantum on the Quincy shore to Marblehead to keep a dinner engagement at the Tedesco country club.

The aviators were H. N. Atwood of Swampscott and Charles K. Hamilton, who left Squantum in a Burgess-Curtiss biplane shortly after 5 o'clock and took a run down to Nantasket, eight miles away, and return, as a tryout. Replenishing their gasoline supply on the return, the men started off again for the Tedesco club at Marblehead, twenty-seven miles away, airline.

All but less than half a mile of the distance over the waters of the bay, but notwithstanding the strong and puffy wind which was blowing, Pilot Atwood headed straight line, deviating slightly that he might pass over his home, where his mother stood in the front door watching her son's flight.

The landing at the Tedesco club was made easily, thirty-three minutes after the start, and to-day the aviators declared they would return to Squantum as they came, by the air.

The witness said the "classical" Camorra no longer existed. BRYAN'S DAUGHTER WEDDED.

Miss Grace Becomes Bride of Lincoln
Business Man.

Lincoln, Neb., June 8.—Miss Grace Dexter Bryan, youngest daughter of William J. Bryan, and Richard Lewis Hargreaves, a young business man of Lincoln, were married last night at Fairview, the Bryan suburban home. The bride was attended by Miss Lily Tyler of Virginia and Miss Helen Schwind of Lincoln. William J. Bryan, jr., was the best man. The bride was given away by her father.

D. T. Church, the oldest conductor in the service of the Central Vermont railway, has tendered his resignation and will retire from service. Mr. Church has long been a well known conductor on the line and recently has been on the Montreal and White River Junction run, going south on trains No. 8 and No. 4 and returning to Montreal in the evening on train No. 3, the New England States Limited. Mr. Church entered the service of the Central Vermont railway in 1866, and was promoted to the position of conductor in 1870, thus having completed about 40 years as a conductor in active service on the road and nearly 45 years in the employ of the road. Mr. Church's resignation will take effect about July 1, when he expects to retire from active business life.

Rain is needed greatly in the southern part of the state and unless it comes soon in plenty, the hay crop will be largely decreased from what was cut last year. The plowed fields where seed has been put in are dry in many places and it is feared they will be obliged to reseed, especially corn. The roads are in bad condition owing to the clouds of dust, caused by the large amount of automobile travel. The pastures show only a light growth of grass and dairy owners are beginning to give the cows extra feed. The grass on the low lands looks fairly well, except in water killed places, which are quite numerous.

PRISON TERM
IN RARE CASEWoman Sentenced For Trans-
porting Body Without Permit

SHE PLEADED GUILTY TO-DAY

Mrs. C. A. Ober of Rutland Had Been
Arrested First On Suspicion In
Connection with Death of
Week-old Grandchild.

Rutland, June 8.—Mrs. C. A. Ober, aged 37, pleaded guilty before Judge Swinerton in Rutland city court to-day to the charge of transporting a dead body without a permit from the health authorities, and was sentenced to not less than three and not more than eight months in the county jail. The woman carried to Castleton on May 22 the body of an illegitimate child which was born to her daughter, Mrs. Kate Donohue, of this city.

The action to-day against Mrs. Ober followed the receipt of a report from the state laboratory of hygiene yesterday that no traces of poison were found in the body of the child, which was one week old, and that death probably occurred under normal circumstances. Mrs. Ober claimed that the child was dead when she took it with her on the trolley car to Castleton, she believing that when the body was found it would be cared for. The body was in a box which was found at the farm of Charles Griswold. Dr. W. R. Blossom, who attended Mrs. Donohue, stated the child was normal at birth.

JEALOUSY CAUSE
OF SHOOTING GIRLMiss Mae Labelle of Essex Junction Re-
ceived Several Bullet Wounds, and
Her Assailant Was Caught.

Burlington June 8.—Miss Mae Labelle of Essex Junction was shot and badly wounded yesterday afternoon by Arthur Bosworth. The shooting took place on the platform inside the Central Vermont passenger station at Essex Junction.

The state's attorney went to the hospital this morning to get the girl's dying statement regarding the shooting. Bosworth refuses to say anything about the case.

Miss Labelle was going from her home to Johnson's hotel, where she was employed as a kitchen maid. Bosworth, who, until Monday, had for a short time been employed about the hotel, was evidently waiting for her.

Station Agent Fisk, who was in his office heard what proved to be two shots just outside the window, but was busy and did not think of that until he saw the girl run past the window with her hands to her face and the fellow was shooting her in the back. She ran into the men's waiting room and around and out through the women's room to the platform where Bosworth met her and fired again.

Mr. Fisk then secured his own revolver and got to the scene. The girl was on her knees. Fisk told the man to throw down his revolver; whereupon Bosworth tried to fire at him, but the revolver was empty. Others gathered and Bosworth was taken in charge and a little later brought to the county jail in this city by Officer D. C. Woodward.

There was not a doctor in Essex Junction at the time of the shooting so Walter B. Johnson, proprietor of the hotel, with an automobile hurried the girl to the Fanny Allen hospital. There were nine holes where the bullets had passed in and out of her body. Four bullets were found in her. She was shot in the face, breast and side.

Not much is known in Essex Junction of Bosworth or Dosworth, only his home is in England. He came here about six weeks ago, claiming to have walked from Montreal. He was without funds and was looking for food and work. He made a fair appearance and Mr. Johnson, needing a man, gave him a place.

It is claimed Bosworth did not get along well with some of the help including this girl and that he repeatedly annoyed her with his attention but she would not notice him and he was jealous.

Bosworth also blamed her for causing his discharge. It is claimed he said Miss Labelle had done him a dirty trick and he was getting even with her. Some claimed he had been drinking yesterday. He is apparently about 26 years old. His weapon was a 32-caliber revolver.

Miss Labelle has besides her parents and one sister, Mrs. J. Vandehoe of Burlington. Shortly after the shooting State Attorney Henry B. Shaw accompanied by Sheriff Allen and Deputy Sheriff Todd went to Essex Junction and Bosworth was taken to the jail in Burlington where he was closely questioned by Mr. Shaw. The young man took his arrest coolly and conversed with Mr. Shaw for some time at the jail, relating his side of the story.

The young man said that he purchased the revolver with which the shooting was done some time ago. He admitted that he intended to use the revolver in self-defense if his alleged enemies did not stop persecuting him. Bosworth appears to be a fellow of a very melancholy turn of mind, apparently possessed of the idea that the world is against him. His story last night, while having a general tone of truthfulness seemed rambling at times ago.

George Straiton of this city yesterday secured the contract for all the granite to be used in the mansion which Judge E. H. Gary, head of the steel trust, is to erect for himself on Fifth avenue, corner of 67th street, New York. The contract calls for about 7,000 cubic feet of Barre granite, all five hammered finished (10 cut.) This granite is to be used as trimmings and in the vestibule entrance to the building, which will have a frontage of 135 feet on Fifth avenue and 45 deep on 67th street. The contract calls for the delivery of all granite within three months, and the work of cutting the same will begin at once.

Barre granite was selected for this job because of its superior qualities over three other granites submitted with it for selection.

Mr. Straiton has just completed the contract of the City Investment Co. building at Cleveland, Ohio. This was all polished granite.
